

# BIQE0324

## Outdoor box

### Ideal for:

Telecom

Hotels & Resorts

Universities

Healthcare

Public Places

Airport

Transport

Industries

## OVERVIEW

It's an outdoor surveillance box, it contains circuit breaker, heater, heater temperature controller, cooling fan. It has IP66 protection level, can be used in outdoor. It can be applied for surveillance monitoring, forest monitoring, etc.

## FEATURES

- Provide 1 channel AC220V power input;
- Built in lighting (door open turn on), cooling fan, DC12V2A power module, grounding array, etc;
- The box body adopts waterproof (protection level Ip66), anti-rust treatment, suitable for long time outdoor use;
- It can be applied to safe cities, smart transportation, tourist attractions monitoring, forest monitoring, water conservancy monitoring, etc.

## SPECIFICATIONS

| PARAMETER                  | SPECIFICATIONS                    |
|----------------------------|-----------------------------------|
| Power Input                | AC100~240V, 50/60Hz, 10A          |
| Power Output               | AC100~240V output, 2AC Socket     |
| Power module               | AC 100~240V input, DC12V2A output |
| Light                      | DC12V                             |
| Operating Temperature      | - 20°C~70°C                       |
| Storage Temperature        | -40°C~85°C                        |
| Humidity (no condensation) | 0~95%                             |
| Dimension(L×W×H)           | 600×680×380mm                     |
| Material                   | Metal                             |
| Colour                     | White                             |
| Net-weight                 | 15kg                              |
