

## 6 ports Industrial PoE Switch BI604PE2F series

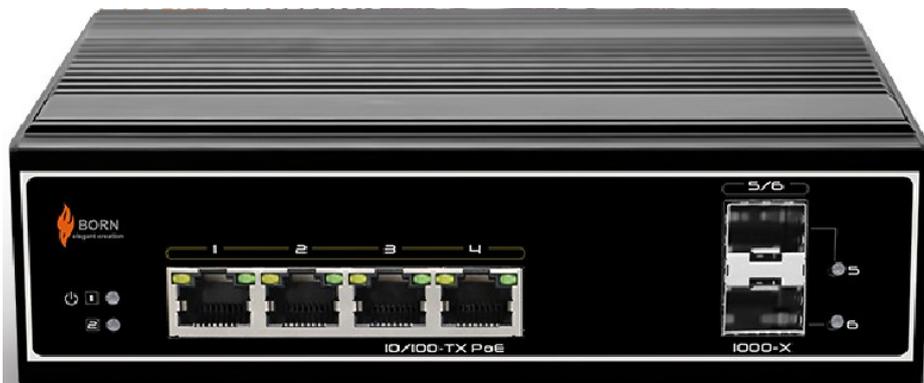

### ❖ Overview

The BI604PE2F is a 6-port, industrial PoE switch that supports up to 4 \*10/100M PoE ports and 2\*1000M uplink ports. 4 \*10/100M ports support PoE+, conforming to IEEE 802.3af/at standard.

It provides three modes of Extend, Default and VLAN to adapt to variety complex environments. At the same time, support PoE Auto-check function, which is specially designed to solve the problems of equipment frozen. It can automatically detect the frozen PD equipment and restart the ports' output of PSE, and restart the PD device. It greatly reduces the maintenance difficulty of engineering.

It supports wall hanging and desktop installation, reliable and durable, and can be used in security network video monitoring, network engineering and other occasions.
